Ceramic Fiber Blanket - Technical Data

Needled flexible insulation for linings, equipment wraps, doors, roofs and expansion areas.

Product scope

- Needled roll construction with grade, density, thickness and roll format selected together.
- Standard rolls, cut sections and project packing can be supplied.
- Grade 1600 reference data is available in 96, 128 and 150 kg/m3 densities.

Published references

Classification	Working temperature	Density	Size reference
1260	1100 C	128 kg/m3	7200 x 610 x 6-50 mm
1400	1300 C	128 kg/m3	7200 x 610 x 6-50 mm
1600	1500 C	96 / 128 / 150 kg/m3	Project format

RFQ inputs

- Normal and peak temperature
- Density, thickness, roll width and length
- Installed compression or cut-piece dimensions
- Quantity, packing and destination country

Order specification

State the required grade, dimensions, density, construction and operating conditions with your inquiry. The quotation and approved drawing identify the supplied configuration, electrical values and agreed inspection criteria.
